#### PART 3: TITLE III SERVICES

#### OVERVIEW

Federal Older Americans Act (OAA) regulations (45 CFR § 1321.65(b)(5)) require that the Virginia Department for Aging and Rehabilitative Services (DARS) have policies and procedures regarding Area Agency on Aging (AAA) Area Plan requirements that address the following at a minimum:

The services, including a definition of each type of service; the number of individuals to be served; the type and number of units to be provided; and corresponding expenditures proposed to be provided with funds under the OAA and related local public sources under the AAA Area Plan.

This section is designed to meet the requirements outlined in federal regulations and provide an overview for each projected service the AAA intends to provide. While completing Part 3: Title III Services, refer to the appropriate DARS Service Standards, the Area Plan budget and the information provided in the AAA Area Plan Part 2: Objectives and Strategies.

**Unit Type, Total Units, People Served-** The unit type as defined in the service standard, number of proposed units to be provided in the plan year and number of proposed people that will be served.

**Proposed Expenditure Amount, Funding Source, Match Funding**- The proposed expenditure amounts and the funding source for this service and if any of the non-federal funding is being used as Match Funding for federal/OAA funds.

**Locality Served**- The locations where services will be provided using OAA funds (i.e. cities and/or counties). If a provider is serving all localities, indicate "**ALL**".

**Service Provider(s)**- The organization/entity actually providing the service whether it be subcontractors or the AAA under an approved Direct Service Waiver.

Entity Type- A service provider that is a For-Profit or Not-For-Profit organization or entity.

**Definition of Service-** This is a brief general description of the service. This helps explain it to the public who may be unfamiliar with OAA services. The full definition is contained within the DARS Service Standards.

**Target Populations-** Populations that the AAA will provide services to using OAA funds, with a specific focus on those in Greatest Economic Need (GEN) and Greatest Social Need (GSN). Summarize how the AAA will target OAA services to reach these defined populations (e.g., what action steps or activities will the AAA take to reach individuals with GEN and GSN for the OAA service).

**Service Description**-A detailed explanation of the service being provided. This includes overall program design and operation, staffing, assessments, program evaluation, monitoring of subcontractors and specifically how the AAA will provide it using OAA funds.

**Service Definition:** Care coordination services refer to the process of organizing and managing various healthcare, social, and support services to meet the needs of older individuals and their caregivers, ensuring they receive the right care at the right time. This service is particularly important for older adults who often have multiple chronic conditions, complex health needs, or face challenges in accessing appropriate care. Care coordination is designed to improve the quality of care, reduce duplication of services and enhance the overall well-being of older adults by providing holistic, seamless support.

**Service Definition:** Care transitions refer to the process of moving a patient from one care setting to another, such as from a hospital to home, from a nursing home to outpatient care, or between different healthcare providers. The goal is to ensure continuity of care, minimize the risk of complications, and improve the quality of life during these transitions, especially for older adults who may have complex health conditions. The goal of care transitions is to ensure a smooth, safe, and effective move between different levels or types of care, preventing avoidable hospital readmissions, improving health outcomes, and promoting independence and well-being.

Service Def	finition: L	egal Assistance	provides legal advice and re	epresenta	tion to older ind	lividuals

Service Definition: Legal Assistance provides legal advice and representation to older individuals with economic or social needs. This service can include counseling or support from paralegals or law students under an attorney's supervision, and representation by non-lawyers, where permitted by law. In Virginia, it also includes outreach to those with the greatest social or economic need, as well as education, group presentations, and training aimed at protecting the legal rights of older adults, utilizing materials developed under an attorney's supervision.

**Service Definition:** Assistive Technology/Durable Medical Equipment (DME)/Personal Emergency Response Systems (PERS) provide older individuals with specialized devices and equipment to support their independence, safety, and daily living. This includes assistive technology to enhance communication or mobility, durable medical equipment such as wheelchairs, walkers, or oxygen equipment, and personal emergency response systems (PERS) that allow individuals to request emergency assistance quickly. These services aim to improve the quality of life and ensure the safety of older adults by addressing their physical, mobility, and emergency needs.

**Emergency Meal Provision- Type and Frequency:** 

Nutrition Assessments, Referral and Screening Information:

Program Evaluation of Effectiveness:

Vendor or Subcontractor Monitoring Process and Frequency:

### HOME DELIVERED MEALS INFREQUENT DELIVERY WAIVER

Section 336 of the Older American Act establishes "nutrition projects for older individuals that provide—on 5 or more days a week (except in rural areas where such a frequency is not feasible and a lesser frequency is approved by the State agency) at least 1 home delivered meal per day, which may consist of hot, cold, frozen, dried, canned, or fresh foods and, as appropriate, supplemental foods and any additional meals that [the Area Agency on Aging] elects to provide."

An essential component of the Home Delivered Meal (HDM) program is the social interaction and well-being check that naturally occurs during meal delivery. Within the broader aging network, there are concerns that this vital aspect of the HDM program may be lost when bulk meals are delivered less frequently, particularly in rural areas where participants are often isolated or vulnerable, and/or they may lack other sources of contact. Further, there is also a concern that commercial carriers, like FedEx or UPS, whose primary focus is on package delivery, are not designed to address the social, safety, nutritional, or functional needs of HDM participants. While there are financial constraints that also impact HDM programs, especially in rural areas, commercial delivery of home delivered meals should really only be reserved for the small percentage of participants who are geographically isolated and cannot be reached by regular HDM routes, if applicable.

Not all Area Agencies on Aging (AAAs) are eligible to request a Home Delivered Meals Infrequent Delivery (HDM-ID) Waiver. Agencies eligible to request a HDM-ID Waiver must have at least 50 percent or more of the localities within their planning and service area (PSA) defined as "rural" using the same definition provided in the State Plan for Aging Services Intrastate Funding Formula (IFF).

Eligible AAAs that deliver meals less than weekly to 25 percent or more of their total HDM participants due to feasibility constraints must, in cooperation with any service provider(s), develop and submit a HDM-ID Waiver for DARS review and approval through the Area Plan.

The HDM-ID Waiver must be submitted for review and approval prior to the AAA reducing their delivery frequency to less than weekly and must be updated when significant changes are made to the Area Plan.

**Waiver Validity and Expiration:** Provided there are no concerns with an AAA's implementation of an approved HDM-ID Waiver, DARS will consider approved HDM-ID Waivers to be valid for the duration of the Area Plan Cycle. Annually, DARS will review rural locality designations during the IFF process to determine if an AAA with an existing HDM-ID Waiver will need to submit a HDM-ID Transition Plan to discontinue its HDM-ID program prior to the start of the next Area Plan Cycle. AAAs that lose their rural qualification for a HDM-ID Waiver in Year 4 of an Area Plan Cycle will have 1 additional FFY (i.e., Year 1 of the new Area Plan Cycle) to continue operating its HDM-ID program, however, the AAA must be in compliance with the HDM requirements by Year 2 of the new Area Plan Cycle.

#### HOME DELIVERED MEALS INFREQUENT DELIVERY (HDM-ID) WAIVER FORM

The Area Agency on Aging (AAA) requests a HDM-ID Waiver due to the feasibility of providing at least 1 home delivered meal per day on 5 or more days per week in a rural area:

PSA #:

Select the PSA # from the drop down list then click the button to auto fill the localities within the PSA. Returning to -select- then clicking the button clears the fields.

Select the localities within the PSA where meals are delivered less than weekly and state the method and frequency of delivery for those localities: Locality Method Frequency Total number of participants receiving HDMs in the PSA: Total number of participants receiving less than weekly delivery: Percentage of HDM-ID participants: What is the AAA's specific criteria for identifying HDM clients who are most vulnerable?

Describe the AAA's plan for contact of socially isolated and vulnerable HDM-ID participants:

How will the AAA provide access to Nutrition Education and Nutrition Counseling for these participants?

Describe how the AAA will monitor and evaluate the success of HDM-ID implementation. For Waiver Renewals, please also include a summary of the outcomes of the existing HDM-ID implementation for the current or prior Area Plan Cycle.

# For New HDM-ID Waiver Requests or for Renewals of HDM-ID Waiver Requests at the Start of a New Area Plan Cycle: Separately, the AAA should also submit to DARS for review the following documents:

- HDM-ID Plan
- AAA Registered Dietitian Nutrient Analysis/Meal Pattern documentation
- Governing Board and Advisory Council Approved HDM-ID Policy or Minutes from the Governing Board and Advisory Council Meetings that Outlined the HDM-ID Policy
- Current Food Vendor Contract/Agreement (for Renewals of HDM-ID Waivers)
- Commercial Package Delivery Procedures (if applicable)

**Service Definition:** Health Education and Screening services are designed to promote the wellbeing of older adults by providing essential information and assessments to support their health needs. Health education offers targeted information or materials on age-related diseases, chronic conditions, prevention, self-care, and independence, focusing on prevention, diagnosis, treatment, and rehabilitation. Health screening services include comprehensive assessments to determine an individual's current health status, aiming to detect or prevent common illnesses in older adults. These services may also include counseling, follow-up, and referrals to ensure optimal care and support for the individual's health and wellness.

**Service Definition:** Institutional Respite is a type of respite care that is provided in a specialized facility or institution, rather than in the home or community setting. This form of respite care allows caregivers to temporarily place their loved one in a residential care facility where trained staff provide supervision, assistance with daily activities, and healthcare support. The facility may be a nursing home or a dedicated respite care facility.

Lo	cality Ser	ved		Service Provid	er	Entity Type
Service Definition: Elder Abuse Prevention aims to protect older adults from abuse, neglect, and						

exploitation through education, early intervention, and support. These services include raising awareness, providing counseling, safety assessments, and facilitating community partnerships to ensure a coordinated response.

## **Target Populations:**

#### Service: Long-Term Care Ombudsman Program

## Service Details (Indicate how the AAA ensures ombudsman coverage):

The AAA operates this service for this PSA only.

The AAA arranges for another AAA to provide this service for this jurisdiction.

(If this is the case, forego the remainder of this service page after naming the AAA below.)

#### Identify the other AAA contracted to provide this service:

The AAA provides this service for one or more other PSAs.

# Identify the other PSA(s) for which the agency provides this service:

Proposed Expenditure Amount	Funding Source
· · ·	Title III-B
	Title VII- Elder Abuse Prevention
	Title VII-Long-term Care Ombudsman
	General Funds- OAA General
	General Funds- Ombudsman
	Dept. of Medical Asst. Services (DMAS) Ombudsman
	Supplemental Local or Regional Funding
	Total Proposed Expenditures

In compliance with Section 306(a)(9) of the OAA, in the upcoming program year the Area Agency on Aging must expend on the Ombudsman program not less than the total amount of Title III (Section 304 (d)(1)(D) and Title VII funds expended FFY 2019.

Check this box to attest that the above statement is true:

**Service Definition:** The Office of the State Long-Term Care Ombudsman Program oversees a network of local program representatives that advocate for long term care recipients across multiple settings. These trained advocates work at the community (PSA) level to protect the health, safety, welfare and rights of long-term care recipients. Program representatives investigate and resolve complaints for individuals who reside in nursing facilities and assisted living facilities, and other settings where they receive community based long term services and supports. In addition, Ombudsman representatives provide information and guidance to help individuals access needed services, understand their rights, and navigate the long-term care system.

**Eligible Populations:** Residents of long-term care facilities. (OAA Section 711(6)); individuals who receive home and community based long-term care services through adult day centers, home care organizations, hospice providers, DBHDS, area agencies on aging and any other non-profit or proprietary agencies (Code of Virginia, § 51.5-182).

Number of long-term care beds:	
Number of assigned staff to program:	
% FTE per each staff person assigned:	

Volunteer Recruitment and Management (if applicable):

All host entities (AAAs) providing Ombudsman Program services are required to carry out specific duties (set forth in 45 CFR Part 1324 (Subpart A § 1324.17-19), which include ensuring access to conflict-free ombudsman program services; providing consumers with information and assistance regarding long-term care; investigating and resolving long-term care complaints; and appropriately documenting program activities.

In regard to these required program duties, describe 3 primary (specific) goals for your ombudsman activities this year:

**Service Definition:** Care coordination services refer to the process of organizing and managing various healthcare, social, and support services to meet the needs of older individuals and their caregivers, ensuring they receive the right care at the right time. This service is particularly important for older adults who often have multiple chronic conditions, complex health needs, or face challenges in accessing appropriate care. Care coordination is designed to improve the quality of care, reduce duplication of services and enhance the overall well-being of older adults by providing holistic, seamless support.
